

Towards Cognitive Vehicles:
Perception, learning and decision
making under real-world constraints.
Is bio-inspiration helpful?

November 8, 2019

Best Poster Award

The organisers of the IROS 2019 Workshop "Towards Cognitive Vehicles" and
the EU FETPROACT Coordination and Support Action NEUROTECH
hereby certify that the poster entitled

A dynamic neural model for endowing intelligent cars with the ability to learn driver
routines: where to go, when to arrive and how long to stay there?

By

Flora Ferreira, Weronika Wojtak, Wolfram Erlhagen, Paulo Vicente, Ankit Patel,
Sergio Monteiro and Estela Bicho

is the recipient of the Best Poster Award
